Is the property located: <i>In the Ridgeline and Environmental Preservation Overlay District?</i> <i>On a Severely sloped site? (average slope of 20% or greater)</i>	<input type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> No <input type="checkbox"/> No
Have any permits been issued in the last five years? If yes, describe work:	<input type="checkbox"/> Yes	<input type="checkbox"/> No

Present use of property and buildings:

ACKNOWLEDGEMENT

1. Failure to provide all pertinent data or providing poorly executed plans may delay the processing of an application.
2. City staff and either the Zoning Administrator or members of the Planning Commission may inspect the site of your proposed project. Access to your property is mandatory, but will be limited to the above mentioned planning agency personnel, as is regulated by the State’s Planning and Zoning Law. You are not required to provide access to your property to the general public. Please make any necessary arrangements with staff regarding their access to your property.
3. Final decisions concerning discretionary permits are within the discretion of the Planning Commission or the Zoning Administrator, as appropriate. Statements made by staff to applicants concerning the merits of a proposed project are intended to guide and assist applicants. Likewise, statements made by individual Planning Commission members during hearings and in other contexts such as study sessions may be intended to guide and assist applicants. However, such comments do not bind either the Planning Commission as a whole or the Zoning Administrator and they may in fact be disregarded by the decisionmaker. The decision to approve, condition, or deny a proposed project is within the sole discretion of either the Planning Commission or the Zoning Administrator, based on the evidence presented at the hearing. The same is true for Council decisions on appeals.
4. Obtaining discretionary permit approvals from the Planning Commission and the Zoning Administrator does not guarantee that a project may be built according to the approved plans if engineering plans for the proposed project are not approved. It is the applicant’s choice to proceed in the discretionary review process without first obtaining engineering approvals.
5. If a request for a discretionary permit is based on soils problems, adequate proof (i.e., soils reports) must be provided to the City Engineer before the Planning Commission hearing to enable the City Engineer to assess the validity of the claim, obtain peer review if necessary, and to present a report to the Planning Commission on the subject.
6. Where soil stability is a factor, the soils engineer will be required as part of the application process to verify that the soils report meets city standards for soils reports and at the end of construction to verify that the grading and construction was accomplished as shown in the approved plans.
7. The applicant shall defend, indemnify, and hold the City, its officials, employees, agents, and third parties retained by the City harmless from damages of any kind (including direct or consequential damages) resulting from any actions undertaken pursuant to discretionary applications and from any action challenging a discretionary application. Indemnification includes payment of damages, costs, and attorneys’ fees which may be awarded against the City, its officials, employees, agents, and consultants. The City shall promptly notify the applicant of any claim, action, or proceeding and the City shall cooperate fully in the defense. If the City fails to promptly notify the applicant of any claim, action or proceeding, or if the City fails to cooperate fully in the defense, the applicant shall not thereafter be responsible, but may at its option, defend, indemnify, or hold the City harmless. Nothing contained in this section prohibits the City from participating in the defense of any claim, action, or proceeding.

– Each Additional Sign	\$78.00
Mailing Fee	\$193.00
13% Surcharge fee [applied to application fee]	

SUBMITTAL REQUIREMENTS

1. Planning Application Form

2. Plan Set

One full-size (24"x36"), one half-size (11"x17"), and one PDF (electronic) set of plans. See the [Plan Set Checklist](#) for required plan set details.

3. Colors & Materials Board

An 8 ½"x11" Colors & Materials board depicting the proposed paint colors and exterior materials.

4. Written Description

A written inventory describing all existing and proposed signage. The description shall include:

- Type (wall-mounted, free-standing, canopy, window, directional, etc.)
- Dimensions of all signs
- Total area of sign faces (for two-sided signs include the area of one side only)
- Percentage of wall or window coverage (if applicable)

5. Sign Design Plan

Indicate the design, dimensions, exterior materials, lettering, graphics, colors, framing, attachments, and any other visual exterior details. Also include a side section showing the sign thickness and projection from the building wall.

6. Statement of Findings

Describe on a separate sheet how the project meets each of the Sign Permit standards listed below.

SIGN PERMIT STANDARDS ([§17.18.11](#))

The reviewing body shall approve a type 2 permit if and only if it finds that all of the following conditions exist:

- A. The sign complies with all applicable requirements of this Chapter.
- B. The sign is designed to be compatible with other nearby signs, other elements of street and site furniture and adjacent structures. Compatibility shall be determined by the relationships of the elements of form, proportion, scale, color, materials, surface treatment, overall sign size and the size and style of lettering.
