

**California Department of Insurance** has released two new features to their website to better serve their customers, including Orinda residents!

Check out the Home/Residential Insurance Shop Around Webpage, which showcases insurance companies currently offering discounts or home hardening. It's never too early to protect your home from potential wildfires!

Under customer resources, you can find out if you own a home in an area under the mandatory one year moratorium, along with historical information about the moratoriums. For more information, and to look into these resources visit: [www.insurance.ca.gov](http://www.insurance.ca.gov)

# NEW Department of Insurance Resources!

**Home Hardening**

**Moratoriums**
